Points may be deducted for rule violations. Final score for a contestant that advanced to round two or three of competition is the sum of scores from all rounds.
- On completion of each contestant's performance, the Judges will complete and sign their individual score sheets. The score sheets are immediately removed from the judges' table and delivered to the scorekeeper. Once the judges sheets are given to the scorekeeper they can not be changed or altered and are considered final.

Integrity of the Judging Process.

The challenge to each judge is to independently and fairly score the performance. Once a Judge signs his or her score sheet for a specific contestant they have no opportunity to change the scores. Judges are not, at any time during the contest, informed of the tabulated scores. Judges are not aware of the final top five contestant standings in any division until they hear such information announced at the awards ceremonies. Judges are not allowed to discuss with the public the performance of any contestant at any time during the contest. For the purposes of this contest, the term “Public” includes contestants, instructors, accompanists, parents and all other members of the general audience.

We ask all members of the Public to refrain from any activity that would or could potentially compromise the integrity of the judging process.
